Managed Care Boot Camp for Hospitals –
The "New" Managed Care Environment
New Jersey Hospital Association, Princeton, NJ

March 26, 2014

While many view the new changes through healthcare reform as a return to the managed care efforts of the 90's, the engagement of the federal government as a lead driver of the changes, and the many pilot projects taking place in the Medicare and Medicaid markets, add to the likelihood that these changes are here to stay. Providers need to understand how all of the changes are coming together to create a new market dynamic.

This program is focused on the substantial changes hospital-based providers will face in this new market. The high-quality, low-cost movement will continue to be a major motivator of payers and state and federal legislatures. Additionally, with the new marketplace, along with other significant reforms, providers will arguably face a much more engaged consumer. Attendees of this program will gain insight into optimizing payments in a population-management focused market and gain knowledge concerning efforts related to consumer engagement.

At the conclusion of this program, attendees will be able to:

- Understand how to apply quality and population health considerations to contract negotiations.
- Understand the importance of cross-departmental engagement.
- Learn how the market is shifting to “commoditization.”
- Identify techniques to market hospital value.

Target Audience:
CEO’s, CFO’s, COO’s, In-House Counsel, Managed Care Executives and Patient Account Managers

Fee:
Members: $225 ea.
Non-members: $275 ea.
