DATE: Nov. 3, 2010
TO: Physicians, Nurses
FROM: Mary Ditri
Director, Professional Practice, NJHA
SUBJECT: Pediatric Falls Benchmarking Collaborative – Prerecorded Webinar

The New Jersey Hospital Association is pleased to bring you a prerecorded Webinar designed to provide timely information around fall reduction in healthcare. Regulatory and accrediting bodies continue to increase their attention on falls reduction initiatives, and long-term care facilities as well as hospitals, emergency centers and pediatric facilities within our state are working hard to reduce fall rates and falls with resulting injury. Hear from a collaborative involving children’s hospitals in four different states who combine and compare their data on a regular basis to promote patient safety and the best possible performance in this arena.

Participants at this Webinar will be able to:
- Describe the elements of success critical to starting up and creating sustainability in a specialty collaborative
- Evaluate educational materials, fall risk assessment tools and statistical models
- Understand the importance of selecting the correct statistical model for goal setting
- Synthesize the pros and cons of standardizing risk assessment tools
- Discuss the relevance of this shared collaborative to the work of your organization

FACULTY:

Francine Kingston, MSN, RN-BC  
Director, Clinical Training & Development  
Texas Children’s Hospital

Mary Langevin MSN, RN, CPON HN-BC  
Family Nurse Practitioner APRN-Hematology/Oncology
