

# ACCESS YOUR CODER'S PERFORMANCE

*Fairly, Accurately & Consistently*

**C**odeAbility is a tool that provides a method for developing standards based on facility-specific types of records coded in any given amount of time. The system was designed to assist Health Information Managers combine the coder productivity with the results of quality review findings, providing the most accurate level of performance assessment possible.

**FEATURES:**

- Categorizes Record Types
- Assigns Weighted Values to Records
- Allows for Non-Coding Responsibilities
- Develops Estimated Completion Time Values
- Defines Quality Error Descriptions and Level of Severity
- Produces Overall Score by Coder or Entire Department
- Stores and Compares Data Over Time
