

Leveraging the power of our relationship with Novation, the nation's largest supply cost management company, NJHA and Provista help customers secure the best available prices. We can also help you control total "life cycle" cost – including shipping, installation, servicing, consumables and much more. Even if you work with another purchasing organization, you can reap the benefits with our capital equipment program.

Controlling your capital equipment in today's environment couldn't be more important!

Realize immediate savings in numerous broad product and service categories that include:

patient room
 extended care services
 central supply
 emergency room facilities
 laboratory
 medical records

physical therapy
 pharmacy
 diagnostic imaging
 anesthesiology
 cardiology
 dialysis
 environmental services

housekeeping
 intensive care nursing
 business office
 surgery
 biomedical engineering

Take advantage of even greater savings and value by participating in national group buys. Check out the group buy calendar for 2009. The categories and time frames for these offerings may be subject to change as the group buys are developed.

NJHA's expert staff is ready to help you simplify your purchase patterns, improve your product utilization, analyze your costs and assist with national group buys.

Outstanding service and savings are only moments away. Call us today at 1-888-221-2182.
