

Obtain the Severity and Risk Scores You Deserve!

Let NJHA-Healthcare Business Services Assist

Introducing...

DRG ASSURE

Now that APR-DRGs have been added to the mix, it is imperative that you align clinical documentation and code assignment to drive accurate quality scores.

On a prospective basis, NJHA-HBS' team of experts will...

- Review your Medicaid fee-for-service inpatient medical records to confirm that you have adequately captured severity of illness and risk of mortality
- Identify documentation improvement opportunities
- Analyze, Summarize, and Categorize your strengths and weaknesses
- Educate and Reinforce confidence and collaboration between your Clinical Documentation Improvement, Performance Improvement, and Health Information Management team
