## **AHRQ Introduces New Health Literate Medication Reconciliation Toolkit**

The AHRQ-funded, Multi-Center Medication Reconciliation Quality Improvement Study (MARQUIS) has produced a set of medication reconciliation tools to reduce medication errors that frequently occur during care transitions. The [toolkit](#) includes:

- The MARQUIS Implementation Manual: A Guide for Medication Reconciliation Quality Improvement
- Training videos illustrating health literacy strategies for taking a medication history and providing discharge medication counseling:
- A Return on Investment Calculator for medication reconciliation quality improvement investments

For additional information on how to use health literacy and cultural competence strategies to improve hospital discharge processes, consult the Re-Engineered Discharge (RED) Toolkit at: <http://www.ahrq.gov/professionals/systems/hospital/toolkit/>. For additional pharmacy health literacy tools and resources, go to: <http://www.ahrq.gov/professionals/quality-patient-safety/pharmhealthlit/index.html>
