

Glossary of Healthcare Terms & Abbreviations

PRODUCED BY: NJHA & HRET

Those who serve in healthcare governance have accepted an important responsibility to their organizations, their employees, their patients and their communities. Today's hospitals and healthcare facilities are very complex organizations, and Board members must be prepared to provide guidance and decision-making in a number of diverse areas. The definitions and acronyms alone can be overwhelming – especially in the healthcare reform-era that has sparked an entirely new healthcare lexicon. The glossary contains a thorough listing of terms, phrases and acronyms in the clinical, fiduciary and policy realms.
