

2018 ORGANIZATION OF NURSE LEADERS OF NJ | ANNUAL MEETING & CONFERENCE

*Nurse Leaders of Today
Navigating the Myriad of Innovations & Opportunities*

APRIL 26 & 27 | Princeton Marriott at Forrestal

Nurse Leaders of Today

Navigating the Myriad of Innovations & Opportunities

Nurse leaders and aspiring nurse leaders must continually navigate the ever-changing healthcare landscape and play a crucial role in nurturing an innovative environment that provides concrete opportunities for faculty, nurse scientists and bedside staff to try out new ideas. Fostering innovation and promoting an environment that encourages bold thinking, collaboration and answering-seeking ensures that future innovations can flourish.

Nursing remains a vibrant profession with nurse leaders and bedside nurses possessing a vast wealth of positive energy and knowledge that has become the driving force for change and improvement within their organizations. New innovations from nurses at all levels, in collaboration with other healthcare professionals, on any scale, are ultimately designed to improve the lives of the patients they serve.

Nursing's leaders must be aware of the current state of innovation in complex healthcare settings and must diligently and systematically explore new opportunities for unlocking the power of innovation at the bedside. Innovative leaders, given their conceptual framework, methods, and organizational support structures and systems, can drive significant improvement and changes within a healthcare system.

Innovation requires a degree of risk-taking, a human resource commitment and a collaborative approach, not only among contemporaries and other disciplines, but also "between generations."

Please join us at the ONL NJ annual meeting to explore some of the unique innovations and opportunities that New Jersey hospitals and health systems have successfully implemented.

WHO SHOULD ATTEND:

Nurse leaders who are responsible for patients and staff, including nurse executives, managers, aspiring nurse leaders, supervisors, staff nurses, educators, researchers, nursing faculty and industry leaders.

LEARNER OUTCOME:

After successfully completing the education program, the learner will be able to identify five strategies that promote an environment for innovation and collaboration among nurses at all levels to improve their work environment and lives of the patients they serve.

Successful completion of the education program is defined as in-person attendance for 95% of the didactic learning session and a complete course evaluation.
