

## **Reducing Healthcare Acquired Infections Using a Collaborative Approach**

*New Jersey Hospital Association, Princeton, NJ*

**May 20, 2014**

Registration: 8 a.m. – 8:45 a.m.

Location: NJHA Conference and Event Center

Program: 8:45 a.m. – 3:15 p.m.

760 Alexander Road, Princeton, NJ

---

This program will teach the participants about a variety of collaborative approaches that can be implemented into healthcare acquired infection (HAI) prevention programs. Topics covered will include Comprehensive Unit-based Safety Program (CUSP), TeamSTEPPS and positive deviance. Presentations will include examples of hospitals that have used a collaborative approach to reduce HAI's in vulnerable populations.

### **OBJECTIVES**

1. Review the goals and activities related to the Partnership for Patients initiative
2. Discuss national programming to reduce HAIs and the subsequent results
3. Discuss the development and growth of the N.J. NICU collaborative
4. Identify best practices of infection prevention through real life examples of collaborative efforts
5. Apply the goals and activities that N.J. collaboratives are focused on that reduce HAIs
6. Identify at least two adaptive strategies for engaging front line staff in improvement initiatives
7. Recognize technical vs. adaptive strategies to implement in each situation.

### **TARGET AUDIENCE**

Nurses, physicians, infection control professionals, quality improvement staff and nurse educators.

## **CONTINUING EDUCATION CREDIT**

HRET-NJHA is an approved provider of continuing education by the New Jersey State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
