What You Don't Know About PIP is Costing You Millions!

*Presented jointly by the New Jersey Hospital Association and
Healthcare Financial Management Association – New Jersey Chapter*

May 1, 2014

12 p.m. – 1 p.m.

Hospitals have been and continue to be underpaid by Personal Injury Protection (PIP)/Motor Vehicle Accident (MVA) insurance carriers by misapplications of the governing PIP/MVA regulations.

Effective Jan. 4, 2013, the Hospital Outpatient Surgery Fee Schedule was created for PIP/MVA claims. This schedule applies to hospital outpatient surgeries only. It does not apply to inpatient services, nor does it apply to emergency department services. Therefore, any inpatient or emergency department treatment is not subject to any fee schedule.

However, insurance carriers, over time, have placed hospitals in a position where paying hospitals at Physician Fee Schedule rates is the norm. This is a misapplication of the regulations. Callagy Law is fighting this – claim by claim – and to date has recovered millions for New Jersey hospitals, much of which had already been written off.

Learning Objectives:

- To deliver valuable information on how hospitals can prevent being underpaid by PIP carriers
- To inform hospitals how they can recover money from prior erroneously paid claims.
