FEE: LANJ Members: \$ 50 per facility group
NJHA Members: \$ 50 per facility group

PROGRAM OVERVIEW:

Recently, the Centers for Medicare and Medicaid Services updated interpretive guidelines for long term care settings. Two of the most important updates concern F309 – care of a resident with dementia and F329 – unnecessary medications. This Webinar will focus on the key sections of the interpretive guidelines used by surveyors. In addition, in Oct. 2014 changes were implemented to the MDS 3.0. These include changes to the Resident Assessment Manual and the MDS 3.0 item set. Presenters will review the changes and discuss how they affect your facility's process for managing the MDS 3.0.

OBJECTIVES:

This program will focus on the following:

- What are the changes to F309 – care of a resident with dementia?
- How do these changes impact my facility?
- What are the changes to F329 – unnecessary medications?
- What do we need to do to comply with these changes?
- How has the MDS 3.0 Item Set and RAI Manual changed?
- What changes to my MDS process might be needed?
