

# NAVIGATING MS-DRGs in an ICD-10 World

*Documentation ⇔ ICD-10 Codes ⇔  
MS-DRG ⇔ Reimbursement*

## WEBINAR SERIES

**MARCH 9th, 16th & 23rd, 2016**

Each Session 1:00 p.m. – 2:30 p.m. EST

**March 9 | Session I | Cardiac (MDC 5) MS-DRGs**

**March 16 | Session II | Orthopedic (MDC 8) MS-DRGs**

**March 23 | Session III | Digestive (MDC 6) MS-DRGs**

## PROGRAM OBJECTIVES

October 1, 2015 changed the way we code. Documentation, accurate coding and mapping to the most appropriate MS-DRG is crucial to your bottom line. Grouper logic in ICD-9 and ICD-10 is NOT always a 1:1 map. Understanding how the logic changed and recognizing the importance of documentation and correct coding will help assure appropriate MS-DRG assignment leading to correct reimbursement and data quality.

## WHO SHOULD ATTEND

Health Information Management professionals and directors, coding professionals, CDI specialists

## PROGRAM ATTENDEES WILL

- Gain an understanding of the correlation between the medical record documentation and the specificity of correct code selection in ICD-10
- Gain an awareness of ICD-10 mapping to MS-DRGs and the impact of accurate code selection to your bottom line
- Have the opportunity, within each webinar to work through actual operative reports and be guided through where and how to look for the most appropriate documentation for the diagnosis, procedure, approach, to get to the most appropriate MS-DRG, and your well-deserved reimbursement
- Gain an understanding of the connection between coding and data quality

## FACULTY

**Peggy Feeley**, RHIA, CCS, CCS-P, CPC-H, AHIMA Certified ICD-10-CM/PCS Trainer  
Director, Coding Education & Program Development  
NJHA Healthcare Business Solutions
