PERSPECTIVES ON EMERGING VIRAL THREATS: MOVING FORWARD FROM EBOLA

Monday, May 23, 2016 | 7:00 a.m. – 3:00 p.m.
Hyatt Regency Princeton | 102 Carnegie Center, Princeton, NJ

PROGRAM OVERVIEW

We are living in an interconnected world where an outbreak of infectious disease is just a plane ride away. Emerging infectious diseases – those diseases which have or are a threat to increase – are now part of our regular news cycle. But what lessons have been learned from H1N1, SARS, Ebola and now Zika? Are we prepared to protect our communities from the next outbreak, rather than the most recent one?

With support from the Robert Wood Johnson Foundation, NJHA's Health Research and Educational Trust of New Jersey has put together a free-of-charge, comprehensive program looking at national and international response to and preparedness for emerging viral threats.

Speakers will talk about training the next generation of providers to deal with these major events, what it's like to be a potential patient of a virulent threat and their wealth of experiences at the heart of escalating epidemics.

Healthcare leadership, clinicians and public health officials will have the opportunity to interact with the leaders in the field of emerging infectious disease and learn what it takes to build a comprehensive plan in the face of chaos.

CONTINUING EDUCATION CREDITS:

ACCREDITATION STATEMENT:

HRET is accredited by the Medical Society of New Jersey to provide continuing medical education for physicians.

AMA CREDIT DESIGNATION STATEMENT:

HRET designates this live activity for 5.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
