OVERVIEW:

Quality measures, IMPACT Act measures, the release of skilled nursing facility (SNF) data – all of these are connected to each other and to the Minimum Data Set (MDS 3.0). This seminar will provide professional staff who work directly on MDS completion with an in-depth look at what is changing (and what isn't) on the MDS and how MDS data is being used in different ways to tell the story of your particular SNF. OBJECTIVES:

1. Gain an understanding of Section GG and its implications for quality measurement
2. Identify strategies for ensuring accuracy and consistency in MDS completion
3. Learn how MDS data and claims data will reveal your SNF's performance
4. Understand the six new quality measures and how they will impact the 5-Star rating for your facility
5. Learn how the SNF public data release can affect your strategic position.
