## Building Board Engagement – Tools, Tips & Tech to Support Your Goals [Complimentary Webinar](#)

**Thursday, November 3 at 11 a.m.**

*Is your board fully engaged?* Join NJHA Strategic Partner **BoardEffect** for an informative webinar on how to fully engage your board. Dottie Schindlinger, Governance Technology Evangelist from **BoardEffect** will provide an informative webinar that explores tools, tips, and technology designed to help your board collaborate, communicate, and become more fully engaged in their governance role.

Dottie will begin by defining the concept of “board engagement” in ways that can be more easily evaluated and measured. She’ll also discuss why increasing the board’s level of engagement is important – how it can impact the bottom line. Then Dottie will move to providing specific tips and techniques to help your board become more fully engaged. This webinar will identify specific examples of efforts underway at other healthcare institutions to create meaningful engagement opportunities for their boards. She has some specific tools and technology, especially the BoardEffect board portal solution, can play a role in boosting your board’s level of engagement.

*You’ll leave this 1-hour session with some new ideas you can try at your very next board meeting.*
