NJHA ChimeMaps Webinar

April 18 at 2:30 p.m.

As an innovative geo-solution, [NJHA ChimeMaps](#) uses advanced mapping techniques to provide key actionable insights based on hospital, health, and population data.

Join us for a Webinar...on April 18 at 2:30 p.m.

NJHA and the Connecticut Hospital Association will provide an overview into how *NJHA ChimeMaps* can offer value and innovative ways for member hospitals to gain key actionable insights from data, including hospital, health and population information.

In doing so, we will highlight how *NJHA ChimeMaps* is being used by hospitals for service line analysis, market assessment, intervention planning and community health needs evaluation. Join this webinar as we will clearly:

- Demonstrate the ways in which hospitals are leveraging *NJHA ChimeMaps* for targeted analysis, market assessments, and business planning
- Highlight how *NJHA ChimeMaps* is being used as a critical tool in the development of community health needs assessments (CHNAs) and related analyses
- Identify insights and opportunities available to hospitals using *NJHA ChimeMaps* to navigate the evolving health care landscape
- Outline the shared best practices among hospitals using *NJHA ChimeMaps*.
