

SENSATO
CYBERSECURITY SOLUTIONS

Advanced Cybersecurity Protection for Healthcare

***NJHA / Sensato Healthcare Cybersecurity
Executive Briefing
June 13 @ 10 a.m.
Webinar***

The NJHA/Sensato Healthcare Cybersecurity Executive Briefing (HCEB) is designed to provide healthcare executives (CEO, COO, CFO, CIO, Practice Leaders, Directors & Managers) with critical insights into the current state of healthcare cybersecurity. During this presentation attendees will be provided with critical operational insights into HIPAA, OCR audits and other critical items that are often not fully understood, but present a key challenge to the healthcare executive and their organization.

Agenda

- Current State of Cybersecurity
- Critical Cybersecurity Items to Understand and Manage
- Myths and Realities of HIPAA and OCR
- Common Mistakes Related to Risk Management
- Personal Liability & Cybersecurity

This presentation will provide ample opportunity for question and answers and is considered a qualifying event for meeting NIST 800-53 requirements (the backbone of HIPAA) for executive understanding of cybersecurity and privacy.
