OVERVIEW:

The HCPRREA requires all licensed New Jersey health care entities to report licensed or certified health care professionals whose conduct is impaired and/or who exhibit incompetence or professional misconduct to notify the New Jersey Division of Consumer Affairs, Health Care Professional Information Clearing House Coordinator. The Act covers licensed and certified professionals who are employed by, under contract to render professional services to, or who have clinical privileges granted by a health care entity, or who provides such services pursuant to an agreement with a health care services firm or staffing registry.

A health care professional also has an obligation to file a report with the Health Care Professional Information Clearing House Coordinator if that health care professional has information which reasonably indicates that another health care professional has demonstrated an impairment, gross incompetence or unprofessional conduct which would present an imminent danger to an individual patient or to the public health, safety or welfare of the patient.
