Seminar | EDU 1864

OVERVIEW:

Effective interdisciplinary teams are the foundation upon which successful Programs of All-Inclusive Care for the Elderly (PACE) are built and sustained. It is often difficult for clinicians and others who have been part of teams in other healthcare settings to adapt to the PACE environment as a team leader. This seminar will cover what is so special about the interdisciplinary team in PACE, who should be part of the IDT, team dynamics and using data to drive team discussions. The goal of the day is for participants to learn how to achieve excellence and become a high-functioning and effective and effective interdisciplinary team leader.

OBJECTIVES:

1. Understand the roles of IDT members and facilitators
2. Learn what PACE IDTs do and what an IDT agenda should look like
3. Identify what makes an IDT high-functioning and how to see problems within an IDT
4. Learn how to use data to drive IDT discussion and functioning
5. Identify ways to grow and learn together as part of a PACE IDT

TARGET AUDIENCE:

Interdisciplinary team leaders and participants within PACE organizations.
