OVERVIEW:

This multi-part webinar series “Opioid Stewardship 101”, featuring national experts, is designed to educate healthcare leaders, clinicians, and other stakeholders involved in improving opioid-use related outcomes. This series will introduce learners to the basic concepts of opioid stewardship and provide real-life examples of improvement strategies that can be implemented as part of an opioid stewardship program.

OBJECTIVES:

Upon completion of this program, participants will be able to:

- Identify initiatives an opioid stewardship team can undertake to improve safe opioid use
- Describe strategies to engage leaders, clinicians and stakeholders in opioid stewardship
- Describe how to effectively use opioid-related data to influence clinician behavior and drive sustainable change.
- Describe the successes and challenges of medication-assisted maintenance treatment for Opioid Use Disorder.
- Apply evidence-based, comprehensive pain management practices and address opioid misuse
