

Advance Care Planning: How You and the Community Will Benefit

WEBINAR

APRIL 16, 2021
12 NOON - 1 P.M.

EDU 2117W-2

Fee: \$19

OVERVIEW:

Advanced Care Planning (ACP) is a process of understanding, reflecting on and discussing experiences, values and beliefs in an effort to identify how someone wants to live if faced with a serious or life-limiting illness. It also may include identifying the care someone would want at the end of your life. It's also important to choose an individual to speak on one's behalf if they are unable to make their own decisions, and take comfort in knowing that person will convey their wishes. Individuals also can decide if they want to complete an ACP document, often referred to as an advance directive. Finally, it is important to communicate one's wishes to family, friends, clergy, other advisors, physicians and other healthcare professionals to help ensure these wishes are honored.

OBJECTIVES:

- Explore thoughts and feelings about advance care planning
- Discuss advance care planning concepts with loved ones
- Utilize resources to complete advance care planning.

LEARNER OUTCOME:

Upon completion of the program the learner will be able to list two benefits of advance care planning that will be transferrable to their practice or organization.

Successful completion of the webinar is defined as attendance for 95 percent of the webinar learning session and a completed course evaluation.

TARGET AUDIENCE:

Physician, residents, advance practice nurses, physician assistants, nurse leaders, nurses, quality managers, patient advocates, chaplains, public/community at large.
