Workers Comp: Taking Control of Your Payments

*Presented jointly by the New Jersey Hospital Association and
Healthcare Financial Management Association – New Jersey Chapter*

August 6, 2014

12 p.m. – 1 p.m.

As one of a handful of states with no workers comp fee schedule, New Jersey has long experienced inconsistencies and confusion in regard to insurer payment practices for these claims. As a result, hospitals are using a variety of approaches to increase their payments, with similarly varying results.

It is important to know what some of those recovery models are and ways to maximize your hospital's revenue from workers comp claims. Callagy Law, which has recovered well over \$27 million in additional workers comp payments for its healthcare clients since 2010, will share what they have learned, what you should know and why it is so important to your bottom line.

Learning Objectives:

- To deliver valuable information on how hospitals can prevent being underpaid on workers comp claims.
- To inform hospitals how they can recover money from prior erroneously paid claims.
