

Does your Energy Program Need a Boost?

The NJHA Energy Purchasing Services Program allows your hospital to access special technical expertise at a fraction of what it would cost individually through its partnership with EnStrat Analytics, an energy procurement consulting firm specializing in designing and maintaining large-scale energy portfolios.

EnStrat Analytics employs cost effective and proven methods that assure proper due diligence and superior results in natural gas and electricity.

ON THE NJHA ENERGY PURCHASING SERVICES PROGRAM – you'll benefit with an incremental purchasing strategy that capitalizes on opportunities to take advantage of favorable pricing movements while protecting against upward price spikes!

NJHA IS ABLE TO AGGREGATE THE VOLUME FROM PARTICIPATING MEMBERS TO:

- ▼ Leverage favorable contract terms and conditions
- ▼ Obtain modest pricing concessions
- ▼ Improve service level from suppliers

ADDITIONAL PROGRAM BENEFITS INCLUDE:

- ▼ Market intelligence and value-at-risk analysis
- ▼ Diversified purchasing techniques
- ▼ Notification of day-ahead pricing events and system load peaks
- ▼ Ad hoc long-term price forecasting and energy project overview
- ▼ Access to experienced energy personnel to ensure purchased positions match expected consumption
- ▼ Invoice reconciliation to ensure supplier compliance
- ▼ Flexibility in purchasing options that address low, moderate or high risk.
