Welcome to ASPR TRACIE

Brought to you by HHS ASPR, the Technical Resources, Assistance Center, and Information Exchange (TRACIE) was created to meet the information and technical assistance needs of regional ASPR staff, healthcare coalitions, healthcare entities, healthcare providers, emergency managers, public health practitioners, and others working in disaster medicine, healthcare system preparedness, and public health emergency preparedness.

This video highlights ASPR TRACIE's first two years of service. Learn more from our partners, stakeholders, and project team about how ASPR TRACIE can help you find solutions to tough disaster health challenges.

ASPR TRACIE Celebrates Two Years of Service

ASPR TRACIE is comprised of three complementary domains:

Technical Resources (TR)

A self-service collection of disaster medical, healthcare, and public health preparedness materials, searchable by keywords and functional areas.

(/technical-resources)

Assistance Center (AC)

Provides access to Technical Assistance Specialists for one-on-one support.

(/assistance-center)

Information Exchange (IE)

A user-restricted, peer-to-peer discussion board that allows open discussion in near-real time.

(/information-exchange)

In The News

Select Mass Violence Resources

These ASPR TRACIE-developed resources can help our stakeholders prepare for, respond to, and help their communities recover from mass violence incidents.
