Current Events in Emergency Management and Healthcare

HPH Cybersecurity Performance Goals

The Department of Health and Human Services (HHS) helps the Healthcare and Public Health (HPH) critical infrastructure sector prepare for and respond to cyber threats, adapt to the evolving threat landscape, and build a more resilient sector. As outlined in the HHS Healthcare Sector Cybersecurity concept paper, HHS is publishing these voluntary healthcare specific Cybersecurity Performance Goals (CPGs) to help healthcare organizations prioritize implementation of high-impact cybersecurity practices.

NJOHSP 2024 Threat Assessment

"Looking ahead to 2024, NJOHSP analysts identify homegrown violent extremists (HVEs) and white racially motivated extremists (WRMEs) as the highest threats to New Jersey. While the threat from HAMAS and other foreign terrorist organizations (FTOs) is low, HVEs, inspired by these groups, may be motivated by global conflicts to plan or execute attacks in the U.S. Domestic extremists, including WRMEs, may exploit the upcoming presidential election to amplify their ideologies and commit acts of violence, focusing on soft targets like mass gatherings and critical infrastructure."

NJEPA Emergency Manager of the Year Nominations

This award was created to honor his memory and recognizes an individual or program, public or private, that embodies the values and leadership displayed by Kevin during his thirty-three years of service to the Emergency Management Community in New Jersey. The recipient will be an individual or program whom, through their long-term commitment to emergency preparedness efforts, have clearly influenced the Emergency Management profession and community in New Jersey, in a positive and insightful manner. Any individual, or group, active in emergency management activities in New Jersey are eligible.

Webinars and Events

Featured Webinar

Every month on first Tuesday

ASPR Partner Update Webinar

The U.S. Department of Health and Human Services Office of the Administration for Strategic Preparedness and Response (ASPR) and Project ECHO have launched this program designed to create peer-to-peer learning networks where clinicians who have more experience treating patients in emergency situations share their challenges and successes with clinicians across the U.S. and around the world with a wide variety of experience of these situations. Topics for sessions are based on new and emergent information around emergency preparedness, as well as topics requested by participants.
