WHEN HEALING MEETS HACKING:
Dangers in Healthcare Tech

March 10, 2026 | 10:00 a.m. – 2:30 p.m. *(Registration opens at 9:30 a.m.)*
NJHA Conference Center, 760 Alexander Road, Princeton, N.J. 08543

Program Agenda

9:30 – 10:00 AM | Registration & Continental Breakfast

10:00 – 10:30 AM | Introductions

10:30 – 12:00 PM | Legal & Compliance Landscape

Join legal, digital information and compliance experts for a fast-paced session on the current legal/regulatory landscape and enforcement trends in the healthcare industry—at the intersection of data and technology. Learn how to reduce risk through cyber-insurance, strengthen vendor contracts, and stay ahead of lawsuits and enforcement actions. Practical strategies, real-world cases—tips to better safeguard your organization.

- *Steven Weisman, Esq., Partner, McCarter & English, LLP*
- *Scott Christie, Esq., Partner, McCarter & English, LLP*
- *Linda Reed, Senior Vice President, Chief Compliance and Digital Information Officer, St. Joseph's Health*

12:00 – 1:00 PM | Networking Lunch

1:00 – 2:30 PM | Preparedness & Problem-Solving

Cyber threats in health care are evolving fast—from ransomware and AI-driven attacks to phishing, voice imitation, and vulnerabilities in medical devices and third-party systems. This session dives into the most pressing risks facing hospitals and providers, including how attackers exploit technology and human behavior. Experts will share practical strategies for strengthening cybersecurity safeguards, implementing robust policies, and building a culture of awareness through staff training and education. Learn how to protect sensitive data and maintain patient trust in an era of sophisticated digital threats.

- *Krista Shea Valenzuela, Bureau Chief, New Jersey Office of Homeland Security and Preparedness, Division of Cybersecurity*
- *Miroslav Belote, Chief Information Security Officer, Valley Health System*
- *Thomas Flynn, Senior Vice President and Chief Compliance Officer, Hackensack Meridian Health*

LEARNING OUTCOMES

At the completion of the conference, participants should be able to:

- Analyze the legal and regulatory implications of emerging cybersecurity threats within the healthcare sector and evaluate how these risks impact organizational liability and patient privacy.
- Apply legal frameworks, risk-management strategies, and compliance best practices to strengthen institutional resilience and safeguard protected health information.
- Identify steps to better position healthcare entities on cybersecurity preparedness, breach response, and vendor oversight.

Supreme Court of New Jersey Accreditation

This program has been approved by the Board on Continuing Legal Education of the Supreme Court of New Jersey for 3.0 hours of total CLE credit. Of these, 0.0 qualify as hours of total credit for ethics, professionalism, and professional responsibility, of which 0.0 qualify as hours of credit for diversity, inclusion and elimination of bias (BCLE Reg. 302:1). Participants should claim only the credits commensurate with the extent of their participation.

ACHE Qualifying Education Credits

By attending the When Healing Meets Hacking: Dangers in Healthcare Tech program offered by New Jersey Hospital Association's Health Research and Educational Trust of NJ (HRET) participants may earn up to 3.0 ACHE Qualifying Education Hours toward initial certification or recertification of the Fellow of the American College of Healthcare Executives (FACHE) designation.

ACCESSIBILITY AND ACCOMMODATION

We are committed to making our event accessible to all attendees. If you have any specific accessibility needs or require accommodations to fully participate, including dietary restrictions, please contact us at njhaeducation@njha.com.
