

A TURNKEY EDUCATION SOLUTION FOR YOUR HEALTHCARE ORGANIZATION

Helping New Jersey Healthcare Organizations Stay Ahead of Increasing Cannabis-Related Clinical Education Needs

Recent federal cannabis policy changes and increasing patient use are driving more clinical questions across hospitals and health systems.

PREPARE YOUR WORKFORCE. PROTECT YOUR PATIENTS. STRENGTHEN YOUR ORGANIZATION.

Clinicians across specialties are increasingly encountering complex cannabis-related issues that impact patient safety, treatment decisions, and outcomes.

More patient questions and requests for guidance

Increasing patient use across all populations

Medication interactions and safety concerns

Perioperative management considerations

Psychiatric, neurologic, and behavioral health implications

Pregnancy, adolescent, and geriatric safety questions

Documentation, counseling, and risk management responsibilities
